Sergei Dmitrievsky School
2023

JavaScript/Frontend.Pre-School

RS school
2024

SKILLS

- HTML
- CSS
- Git & GitHub
- JavaScript
- Figma
- FontAwesome and Bootstrap

LANGUAGE

English - A2
Russian

ABOUT ME

Frontend development for me is about creating user-friendly, well-thought-out and aesthetically pleasing interfaces where technology harmonises with design and the user experience becomes intuitive. This inspires me to evolve, master new tools and constantly learn through courses, workshops and real projects. I value structure, being able to plan tasks, work in a team and find optimal solutions. It is important for me to be part of a team where professionalism, development and openness are valued. I am a quick learner, adapt to challenges and am ready to bring value to projects.

EXPERIENCE

Web development teacher 2024-2025

EasyCode

- teaching children and teenagers
- Creating websites using HTML, CSS, JavaScript and Tilda.
- Adaptive layout and modern technologies (Flexbox, Grid)

Programming teacher 2023-2024

IT школа Hello world

- Professional development: I regularly improve my skills and teaching methods by taking courses and trainings as part of the school's educational programme.
- Website development: I taught development using HTML, CSS and JavaScript. Students worked with Figma layouts, learnt BEM, Flexbox and Grid to create responsive web pages.
- Design: Taught Figma, including creating vector illustrations, logos, website and interface layouts, and mockups to visualise projects.
- 3D modelling: Taught a course on Blender, where students learned how to create and render 3D objects for various tasks.

HTML - layout designer 2023-2025

- private website design practice
